

Wire Frame v1.0

Site configuration

Top ページを起点としながら、RCBrowser を用いて質問フォームや Your Q&A を同ページ内で展開する。

(Help Center や Developers などのサブコンテンツについては、ボリュームに応じてスタンダードページとRCBrowser を使い分ける。)

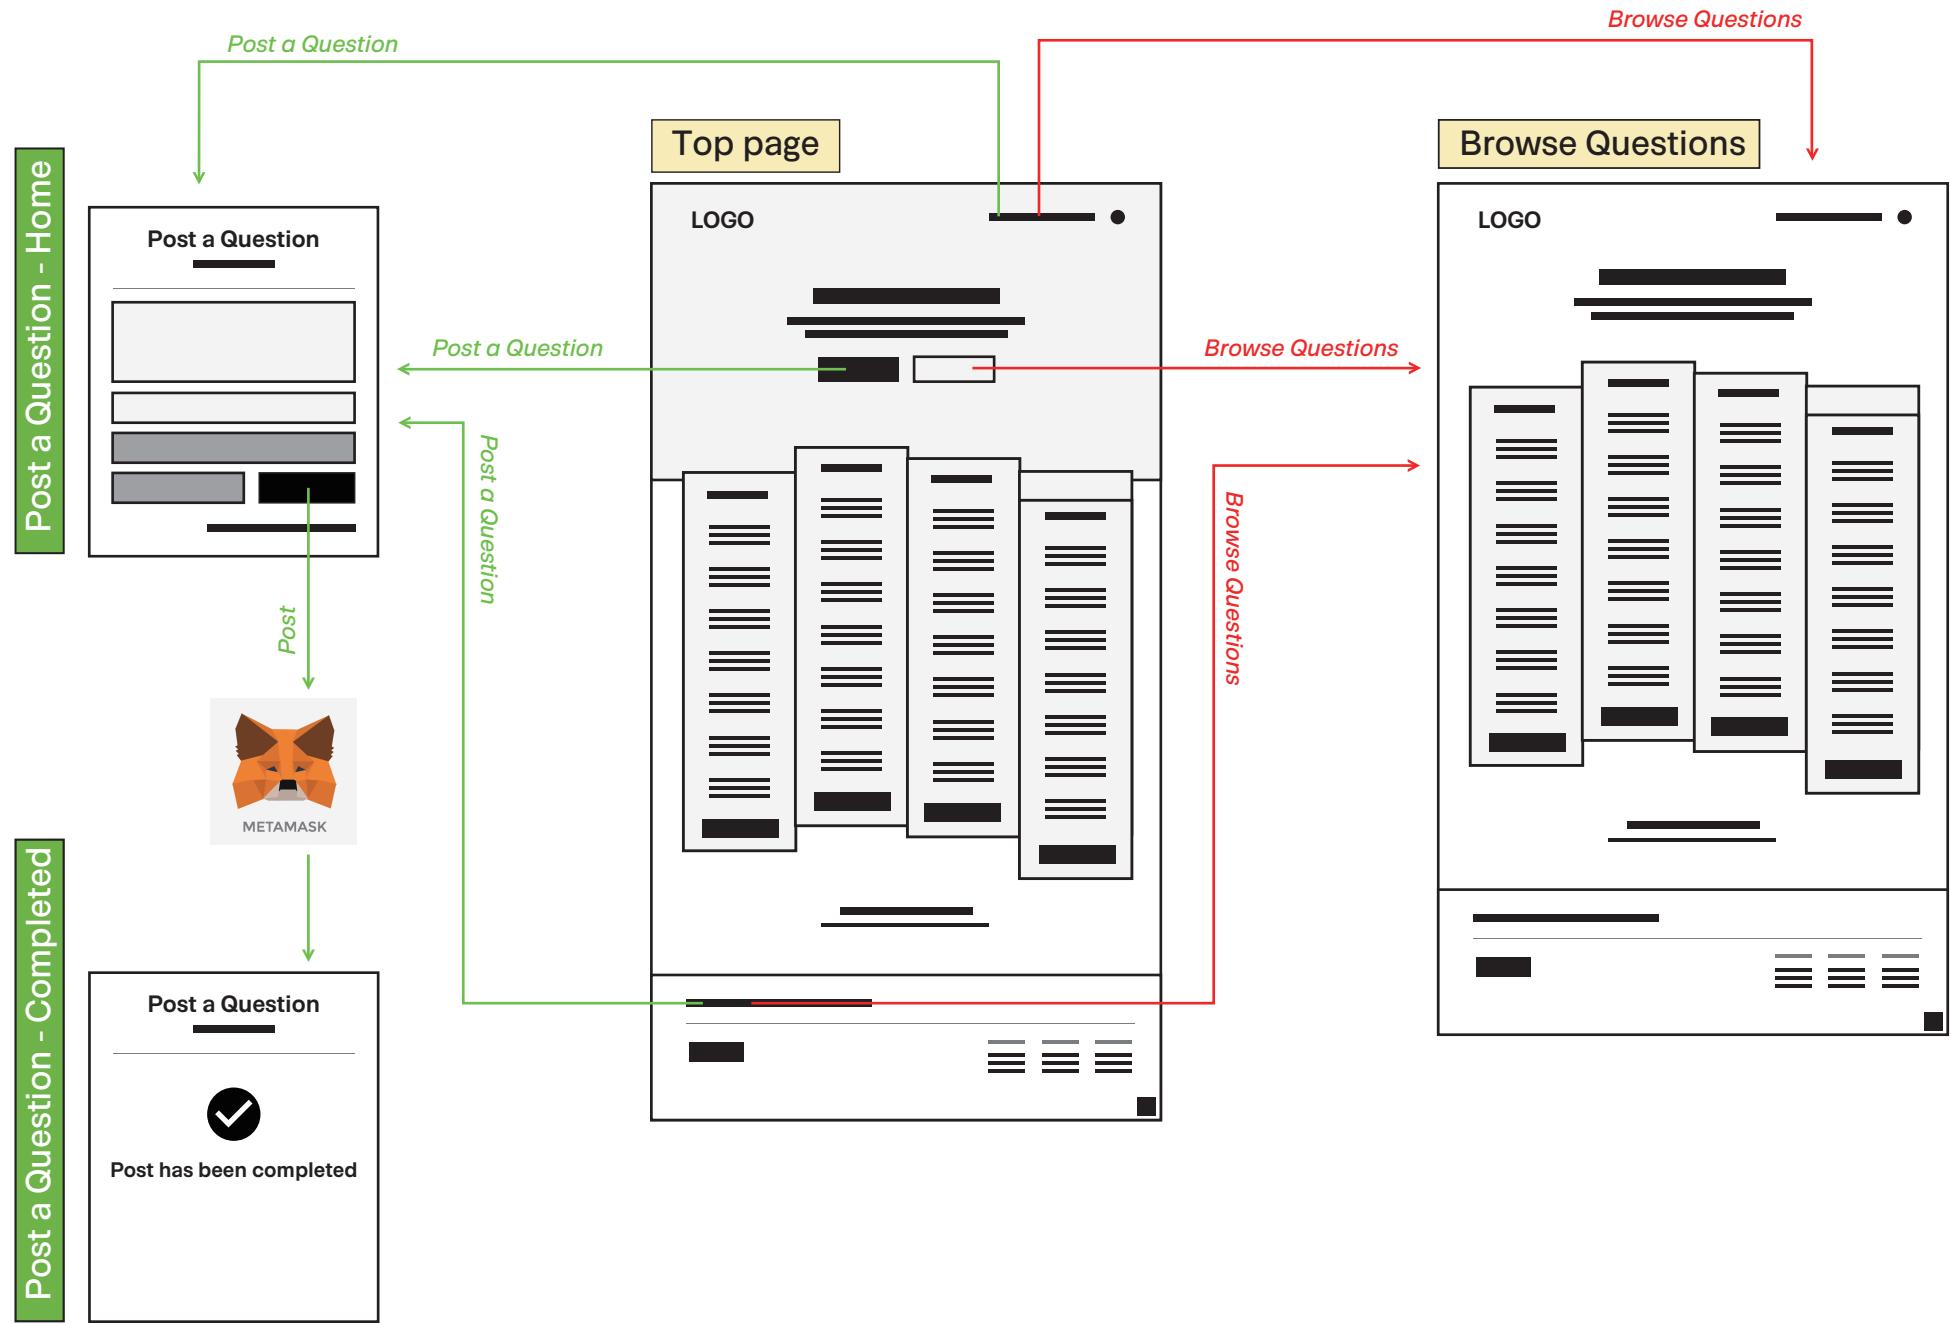

The diagram illustrates the user flow across different wireframe components:

- Top page (Standard page):** The central component, shown in yellow, represents the main landing page.
- RCBrowser Components:** Four green-bordered boxes represent the RCBrowser interface.
 - Top left (Your Questions & Answers):** Shows notifications and a list of questions and answers. A green arrow points from this box to the central Top page.
 - Bottom left (Post a Question):** A form for posting a question, including fields for reward amount, question type, arbitrator, category, and a "Post" button. A green arrow points from this box to the central Top page.
 - Bottom right (Select the Answer):** A step where the user selects an answer to a posted question, showing a dropdown menu and a "Post" button. A green arrow points from the central Top page to this box.
- Bottom center (Footer):** A footer bar with links for Post a Question, Browse Questions, Your Q&A, Help Center, Developers, Legal, Terms & Conditions, Privacy Policy, Other Projects, Reality Check, Aviator Classroom, Get in touch, Twitter, and Slack.
